BP PROFITS FROM GENOCIDE

Dear Bob Dudley

I was shocked to hear about the appalling **human rights abuses** going on in West Papua at the hands of the Indonesian Government and Military.

I was even more disgusted to find out that BP is happy to operate in West Papua, in the middle of a **genocide**.

Papuans do not even benefit from this: the money gained from the exploitation of their homeland is paid directly to the **Indonesian Government**.

I'm calling for BP to pull out of West Papua until Papuans have been granted their right to **self-determination**.

Yours sincerely
